## SERVICES &amp; SOLUTIONS · THE COMPLETE PICTURE

# Three ways to buy back your *time*.

AAA by Artigellence builds production-grade AI agents and automation for Australian SMEs — anchored by a fully refundable Phase 0 pilot. **This document collects all three ways to work together** in one place: the core agent engagement, eight case-by-case extended services, and Findable. *The only contractually binding commitment in any engagement is the Phase 0 refund — and the one-offs credit back toward it.*

## INSIDE · THREE SECTIONS

AUTOMATION &amp; AGENTS · SYDNEY · THE BRIEF · MAY 2026

## THE DIAGNOSTIC · WHAT'S EATING AUSTRALIAN SMES

# An honest brief on *AI automation for Australian SMEs* — what it costs, what it does, what it doesn't.

AAA by Artigellence builds production-grade AI agents and automations for Australian SMEs — anchored by a fully refundable Phase 0 pilot. **This Brief is three pages, five minutes' reading.** It's the same information published at [aaa.artigellence.com](https://aaa.artigellence.com), in a format you can read on the train, between meetings, after dinner. *No essay quotes. No big claims. The only contractually binding commitment in any AAA engagement is the Phase 0 refund.*

of AU SMEs have no AI strategy  
· NAIC 2025

## THE 6-QUESTION SELF-DIAGNOSTIC

Two minutes. If you cannot easily answer all six, your business is the kind AAA was built for. *No commitment, no follow-up, no drip sequence. Just a useful sanity check.*

1. **Q1.** How many hours per week do you personally spend on finance/admin tasks that someone (or something) else could do?
2. **Q2.** How many invoices in your books are over 60 days late, right now?
3. **Q3.** How many leads landed in your inbox last weekend that you didn't reply to within 4 hours?
4. **Q4.** How many of your customers haven't bought anything in 90 days — and do you know why?
5. **Q5.** If you took a 2-week holiday tomorrow, would your business still grow, hold steady, or stall?
6. **Q6.** What's the single number you check first thing every morning to know if today is good or bad?

**Honest promise.** If your answers suggest only minor recoverable time and limited recoverable cash, AAA will tell you it isn't worth your investment right now — and we won't engage. No upsell, no pressure. *The diagnostic conversation is free, direct from the founder, and the honest "no" is genuinely on the table.*

## Why this brief is *fair*

AAA is in beta launch. No client outcomes are claimed. Industry case studies elsewhere on this page are third-party Australian and global examples — not AAA outcomes. Your Year-1 result will depend on your data, your team's adoption discipline, and which agents you build — **scoped during the refundable Phase 0 pilot.**

**by Artigellence**

THE METHOD · HOW AAA WORKS · PHASED ENGAGEMENT · INCL GST

## THE METHOD · PHASE 0 &gt; BUILD &gt; RETAINER

Risk on the operator at the start. *Money on the table only when you see results.*

No upfront lump sums. Each phase paid on delivery. **All prices include GST.** Stop at the end of any phase and keep what's built so far.

**PHASE 0 · PILOT**

Diagnostic &amp; First Working Result

Raj shadows your business. Diagnostic delivered. **First working result live on your real data by day****10.** You then decide between day 10 and day 30 whether to continue or refund. The full A\$4,500 is refundable up to day 30 — no questions.**A\$4,500**10–30 DAY  
FULLY  
REFUNDABLE**PHASE 1 · BUILD**Agents ·  
A\$3,000 each  
· Min 4Pick the agents your business needs. **A\$3,000 each, minimum 4 agents** (A\$12,000 floor). Standard

Build is 8 agents (A\$24,000). Each agent paid on delivery — milestone-locked. Real-time integration with Xero / Cliniko / ServiceM8 / MYOB / LEAP / your stack.

**A\$3,000/  
agent**INCL GST  
MIN 4 AGENTS**PHASE 2 · FULL  
RETAINER**Fractional  
COO · 14-  
Agent Ceiling

Raj as fractional Chief Operating Officer. Daily cockpit review. Agents tuned, retrained, evolved.

**Standard Year-1 Engagement clients can scale to 14 agents total** during retainer at no additional build cost. **3-month break clause.****A\$3,500/mo**MONTH 5–12  
3-MO BREAK**PHASE 2 · LITE  
RETAINER**Reduced  
Scope · Same  
Access

For clients who want lower monthly commitment. Reduced scope, agreed at engagement signing.

Same 3-month break clause. **Direct founder access retained** — the lite tier reduces frequency and SLA, not access. 14-agent ceiling does not apply.**A\$1,750/mo**MONTH 5–12  
3-MO BREAK**YEAR 1 · STANDARD ENGAGEMENT · INCL GST****A\$56,500**

Phase 0 (A\$4,500 refundable) + 8-agent Build (A\$24,000) + 8 months × A\$3,500 full retainer (A\$28,000)

*Run-costs (LLM/API/SaaS) paid by client directly · Not included above*

**Monthly run-costs you pay directly.** AAA fees do not include LLM/API credits (OpenAI, Anthropic, Google), workflow automation hosting (n8n, Make, Zapier), or third-party SaaS subscriptions. These pass through to your accounts at cost — AAA does not mark them up.

**Indicative worked example for an SME-scale 8-agent build: roughly A\$200–A\$500/month.** Illustration, not a quote — scoped during Phase 0.

**↳ GOING DEEPER THAN AAA · AARAMBH — THE FOUNDER FORGE**

For founders who want more than AI automation — **Aarambh is seven days, your office, full business build with the same operator.** Legal structure, AI stack, MVP build, go-to-market, pitch documents, 12 months of one-to-one monitoring. **A\$25,000 incl GST.** Take Aarambh and AAA within 12 months and **80% of the Aarambh fee credits to AAA** — A\$25K Aarambh → A\$20K credit, Standard Year-1 AAA (A\$56,500) becomes A\$36,500 net. Credit one-off, non-stackable. Visit [aarambh.space](https://aarambh.space).

**TWO VERIFIED THIRD-PARTY PATTERNS · NOT AAA CLIENTS****✓ VERIFIED · ACCOUNTING · AU**

Shannon Smit / SMART Business Solutions

Mornington Peninsula accounting firm. Deployed AI + RPA across repetitive practice tasks. **998 hours saved annually.** Profiled by SYSTEMology as the "AI-First Accountant".

Source: SYSTEMology · [smartbusinesssolutions.com.au](https://smartbusinesssolutions.com.au)**✓ VERIFIED · CONSTRUCTION · AU**

Australian Construction Tendering

Used Perplexity + ChatGPT for tender first drafts. **15 hrs per tender → 2 hrs.** Eliminated dedicated tender-writer role.

Approximately \$250,000/year saved.

by Artigellence

THE FOUNDER · THE MOAT · NEXT STEP · DIRECT TO RAJ

## THE FOUNDER · DIRECT TO RAJ, EVERY MEETING

I'm not selling software. *I'm selling you back your time.*

"Twenty-five years in regulated, high-stakes consulting. Now applied to AI delivery for Australian SMEs. AAA exists because most owners are drowning in their own success — running 7 days a week, missing weekends, never able to take a real holiday because the business only runs when they're in the room. AI changes that. Not in a hype way. In a measurable, falsifiable way — agent by agent, hour by hour, scoped during Phase 0."

RAJ SINGH · FOUNDER AAA · 25 YEARS REGULATED CONSULTING · SYDNEY · SOLO, AI-AUGMENTED · DIRECT TO FOUNDER, EVERY MEETING (ALL TIERS, INCLUDING LITE RETAINER)

## THE MOAT · WHY AAA, WHY NOW

## 01 · REFUNDABLE PHASE 0

Fully refundable pilot — A\$4,500

Industry default is paid (non-refundable) discovery at \$1,500–\$5,000. AAA's Phase 0 is fully refundable up to day 30. *Risk on the operator.*

## 02 · DIRECT TO FOUNDER

Every meeting, every tier

You get Raj. Every build call, every retainer review — at every tier including lite retainer. No junior, no analyst, no account-manager handoff.

## 03 · 10-DAY FIRST RESULT

Day 10 working result, day 30 decision

Phase 0 delivers a first working result by day 10. Refund window stays open to day 30. Build phase agents 14–21 days each, milestone-locked.

## 04 · MODEL-AGNOSTIC ARCHITECTURE

Build once. Stack swap forever.

AAA agents sit on abstraction layers — not locked to one LLM provider. When new models ship, the engine swaps, the wiring stays. Hours, not weeks.

**Founder's Bonus.** Clients who sign the full Standard Year-1 Engagement (A\$56,500 incl GST) receive a Custom GPT trained on the business + a Media Pack — worth A\$7,000, included. Media Pack: NotebookLM podcast, 5-min audio brief, or explainer video — your pick. Bonus gated to the Standard package; partial engagements do not qualify.

cal.com/raj-aaa/aaa-discovery

## 04 · AARAMBH — FOUNDER FORGE

Seven days · Your office

Broader business build with the same operator. 80% of Aarambh fee credits to AAA if engaged within 12 months.  
aarambh.space

**Honesty callout.** AAA is in beta launch. No AAA client ROI multiples are claimed. The Phase 0 refund is the only contractual commitment. Industry case studies (Shannon Smit, Australian Construction Tendering) are third-party, sourced, and not AAA clients. Monthly LLM/API/SaaS run-costs are paid by you directly — scoped during Phase 0, indicative range A\$200–A\$500/mo for an 8-agent build.

**Disclaimer.** AAA by Artigellence is a business automation and AI services provider, not a licensed financial adviser, AFS licensee, or legal practitioner. Information in this Brief — including pricing illustrations, industry statistics, and third-party case studies — is provided for research, educational, and service-information purposes only. Outcomes depend on each client's data, systems, regulatory context, and team adoption. The Phase 0 fully refundable pilot is the only contractually binding commitment. **Operating entity: Artigellence Augmentation Aggregator · ABN 83 988 690 362 · Sydney NSW Australia. Last updated May 2026. All policies subject to legal review and refinement.**

**by Artigellence**

AUTOMATION &amp; AGENTS · SYDNEY · EXTENDED SERVICES · JUNE 2026

## EXTENDED SERVICES · CASE-BY-CASE

# Beyond the core engagement. *Eight focused services*, scoped per business.

Eight focused services that sit alongside AAA's core **Phase 0 then Build then Retainer** model. Each is scoped and quoted **per business** via the same Brief form already on [aaa.artigellence.com](https://aaa.artigellence.com). Send your situation in a few lines — Raj returns a written scope and quote within **24–48 hours**. No templated proposals. No upsell. Direct from the founder.

**01 · DIAGNOSTIC**

## AI Opportunity Map

A focused, written diagnostic that maps your top three to five automation opportunities **before any build commitment**. Process map of where time leaks, opportunities ranked by hours-saved, indicative ROI bands, and an honest list of what not to automate yet. Built for owners who want clarity before stepping into Phase 0, or a second opinion on an internal AI plan. Delivered solo by Raj — no junior analyst, no templated SWOT.

BEST FIT FOR: SME OWNERS WHO HAVE READ ABOUT AI ALL YEAR BUT DON'T KNOW WHERE THEIR OWN BUSINESS WOULD ACTUALLY USE IT

6–10 page written report

5–7 business days

Direct from Raj

**02 · ADVISORY**

## AI Strategy and Consultancy

Advisory only — **no build**. For founders thinking twelve to eighteen months ahead about how AI affects their business model, hiring plan, or competitive position. Working sessions with Raj. No juniors, no account managers. Written follow-up after each session — what was discussed, what was decided, what's parked. Sessions stand alone or run as a short series. Useful when you're not ready to build, but the decision-not-to-build is also strategic.

BEST FIT FOR: FOUNDERS PLANNING A 12–18 MONTH HORIZON WHO WANT A SECOND OPERATOR'S BRAIN IN THE ROOM

Session + written memo

Per session or retainer

Founder-direct

**03 · INTEGRATION**

## Integration Sprint

A fixed-scope project to connect two or more systems you already use — **Xero with ServiceM8, Cliniko with MYOB, LEAP with Salesforce**, or your own custom API. Built for the case where the agent isn't the bottleneck — the plumbing is. Tested in production, documented, handed over with credentials in your accounts. Includes a run-cost forecast (LLM/API/SaaS) before commit. AAA never marks up pass-through costs.

BEST FIT FOR: BUSINESSES WHERE STAFF RE-KEY THE SAME DATA INTO TWO SYSTEMS DAILY

One named integration, live

Fixed scope · written hand-over

Your accounts, not ours

## 04 · WORKFLOWS

## Standalone Workflow Automation

Narrower than a full agent build. **n8n** or **Make workflows** that handle a specific repeatable process — quote follow-ups, lead routing, invoice approval chains, document hand-offs between staff. For businesses with one painful workflow they want fixed, not a whole stack to rebuild. Forecast of monthly run-cost included before you commit. No retainer required — sits as a one-off, with optional Oversight check-in afterwards if you want it watched.

BEST FIT FOR: A SINGLE PROCESS THAT EATS 3-6 HOURS A WEEK AND DOESN'T NEED AN AGENT — JUST PLUMBING

Live workflow + run-cost forecast

1-3 weeks

Your accounts, not ours

## 05 · PIPELINES

## Pipeline Intelligence

Custom sales/lead pipeline analytics for SMEs with a defined sales motion. **Not a product subscription** — a built solution that reads from your CRM, scores opportunities, flags slipping deals, and surfaces patterns you'd otherwise miss. Best suited to businesses doing roughly A\$1M+ annual revenue with a CRM in active use. Delivered as a dashboard plus a monthly written intelligence brief — pattern-spotter style, not raw report dump.

BEST FIT FOR: A\$1M+ REVENUE WITH A WORKING CRM AND A SALES MOTION THAT CAN BE NAMED IN ONE SENTENCE

Pipeline dashboard + monthly brief

Scoped on current sales motion

Built, not subscribed

## 06 · TRAINING

## AI Training and Workshops

A practical **2-3 hour workshop** built around your business — not generic ChatGPT theory. Your team learns to use the tools they already have (or the agents AAA built for you), with examples from your own workflows. Live online, or onsite if you're in Sydney. Written reference guide included so the session doesn't evaporate the next day. Sized for teams up to 12; larger groups split into two sessions.

BEST FIT FOR: A 4-12 PERSON TEAM THAT NEEDS TO ACTUALLY USE THE AGENTS, NOT JUST KNOW THEY EXIST

Live workshop + written guide

2-3 hours

Online or onsite Sydney

## 07 · OVERSIGHT

## Oversight and Health Check

A monthly check on agents already in production — **catching drift**, watching run-costs, spot-checking accuracy, surfacing one recommendation per month. Built for clients who chose Lite Retainer but want more assurance than Lite alone provides. Sits between Lite and Full — not on top of Full. Output is a written one-page health summary, plain language, decision-ready. Available to post-build clients only.

BEST FIT FOR: LITE RETAINER CLIENTS WHO WANT EVIDENCE THE AGENTS ARE STILL BEHAVING

Monthly written summary

Post-build clients only

Sits between Lite and Full

## 08 · INSIGHTS

## AI Insights Brief

A monthly written brief on AI developments that **actually affect your industry** — not a generic newsletter. Filtered through 25 years of regulated consulting judgement and AAA's ongoing client-delivery work. Two pages, plain language, no hype. For owners who want to stay current without spending weekends watching YouTube explainers. Industry-specific (allied health, legal, food distribution, trades, accounting, professional services).

BEST FIT FOR: OWNERS WHO READ EVERYTHING ABOUT AI ON LINKEDIN AND TRUST NONE OF IT

Monthly 2-page brief

Industry-specific

Plain language · no hype

## ↳ HONEST · HOW THESE WORK

## Each is scoped *case by case*. No fixed price list.

Each Extended Service is scoped and quoted **per business** via the same Brief form the rest of AAA uses. Send your situation in a few lines — you'll get a **written scope and quote within 24–48 hours**, direct from Raj, not a templated proposal. **Most engagements still start with Phase 0** — the refundable pilot remains the cleanest way to know if AAA is the right fit. Extended Services sit alongside it, not above it.

## FINDABLE · AI VISIBILITY &amp; EMAIL DELIVERABILITY

## Get found by AI. Land in the inbox — *what it is, what it isn't.*

Findable is AAA's entry layer: the technical hygiene that decides whether AI search engines read your business correctly and whether your email lands in the inbox. **This sheet is three pages, five minutes' reading.** The same information published at [aaa.artigellence.com](https://aaa.artigellence.com). *No big claims. Findable sells hygiene and control — never a guaranteed ranking. Every one-off credits 100% toward the refundable Phase 0 pilot.*

**~10%**

of AU business sites carry an **llms.txt** file for AI crawlers · SE Ranking 2025

**18%**

of AU domains have any **DMARC** email protection · EasyDMARC 2025

**~12%**

carry the **structured data** AI & search engines read · Web Data Commons

**~95%**

sit under the old **Privacy Act** threshold — most non-compliant · OAIC / ABS

### THE 6-POINT VISIBILITY SELF-CHECK

Two minutes. If you can't comfortably pass all six, your business is the kind Findable was built for. *No commitment, no follow-up, no drip sequence — just a useful sanity check.*

1. **Q1.** Ask ChatGPT or Claude "what does [your business] do?" — is the answer right, vague, or simply wrong?
2. **Q2.** Does your website have an **llms.txt** file and schema markup — or do you not know what those are?
3. **Q3.** Send one email from your business address to mail-tester.com — what is your score out of 10?
4. **Q4.** Are **SPF, DKIM and DMARC** all configured on your domain — or is any one of them missing?
5. **Q5.** When a customer asks an AI for your service near your suburb, are you named in the answer?
6. **Q6.** Do you have a Privacy Act-compliant privacy policy actually published on your site?

**Honest promise.** If you're already set up — llms.txt, schema, SPF/DKIM/DMARC and a compliant policy — Findable will tell you there's nothing worth fixing, and we won't engage. *No upsell, no pressure. The honest "you're fine" is genuinely on the table.*

### Why this sheet is *fair*

AEO and GEO are an emerging area. Findable makes sure the machines can read you correctly and your email lands — it does **not** promise traffic, a ranking position, or being "number one in ChatGPT." Google has stated it does not use llms.txt for ranking. Figures on this page describe the broader web and Australian-domain population, not a survey of your specific industry — all sourced on page 3.

**by Artigellence**

THE PRODUCTS · FOUR WAYS TO START · INCL GST

## BUILD THE BOWER · FINDABLE PRODUCTS

## Four ways to start. *All credit 100% to Phase 0.*

Each Findable product is a small, fast, paid first step that stands on its own — and the one-offs credit in full toward the A\$4,500 Phase 0 pilot if you go ahead. All prices include GST. *llms.txt, robots.txt, schema, sitemap, SPF, DKIM, DMARC, a Privacy Act policy and a compliant signature — the pieces AI and email systems actually read.*

## 01 · DIAGNOSTIC

A\$595

### Foundation Audit

A 15-point check of how AI search and email currently see your business. What ChatGPT, Claude and Perplexity say about you now, your email spam-risk and DMARC status, and the gaps — in a **plain-English written report**. Money back if it isn't useful to you.

BEST FIT FOR: OWNERS WHO'VE READ ABOUT AI ALL YEAR BUT DON'T KNOW HOW AI SEES THEIR OWN BUSINESS

15-point written report

~90-min review · 5 days

Credits 100% to Phase 0

## 02 · DONE-FOR-YOU

A\$1,950

### Foundation Fix

The audit, plus we build the bower for you — search, email and privacy set up properly. **llms.txt, robots.txt, schema and sitemap deployed; SPF / DKIM / DMARC configured; a Privacy Act 1988 policy drafted** — with a 30-day re-check after setup. One job, done.

BEST FIT FOR: OWNERS WHO WANT IT FIXED, NOT EXPLAINED — DONE PROPERLY, ONCE, AND HANDED OVER

Full search + email setup

30-day re-check

Credits 100% to Phase 0

## 03 · DELIVERABILITY

A\$697

### Email Deliverability

Just the inbox problem. We set up authentication and warm a sending address so your quotes and invoices stop landing in spam: **SPF / DKIM / DMARC, a 21-day managed warmup, a Spam Act 2003 compliant signature**, and a spam test across ten major providers.

BEST FIT FOR: BUSINESSES WHOSE QUOTES & INVOICES QUIETLY LAND IN SPAM WITHOUT THEM KNOWING

SPF / DKIM / DMARC

21-day warmup

Credits 100% to Phase 0

## 04 · MONITOR · OPTIONAL

A\$499/mo

### Foundation Monitor

AI search and email change constantly. A monthly re-test, a **one-page plain-English report**, and small fixes applied so the bower stays current. Cancel anytime. Routes into the Lite Retainer if you later scale into a full AAA engagement.

BEST FIT FOR: OWNERS WHO WANT THE SETUP WATCHED, NOT JUST DONE ONCE AND FORGOTTEN

Monthly re-test

One-page report

Cancel anytime

## ↳ ALREADY GOING STANDARD YEAR-1?

**The *Foundation Sprint* — full search, email & privacy setup — is included free with the A\$56,500 Standard Year-1 Engagement.**

The bower's already built; we just add the agents. Standalone Audit & Fix credit 100% toward Phase 0 if you continue.

**by Artigellence**

THE HONEST PART · WHY FINDABLE · SOURCES · NEXT STEP

## THE HONEST PART · WHAT FINDABLE IS &amp; ISN'T

## Hygiene and control. *Never a guaranteed ranking.*

Most Australian sites are invisible to AI — burrowed away like a wombat. Findable arranges the signals so the machines read you correctly and your email lands, the way a bowerbird builds to be found. That is hygiene and control, not magic: **Google has said it does not use llms.txt for ranking**, and anyone who guarantees you'll be "number one in ChatGPT" is guessing.

## THE MOAT · WHY FINDABLE, WHY AAA

## 01 · CREDITS TO PHASE 0

**Never pay twice**

Every Audit and Fix credits 100% toward the A\$4,500 refundable Phase 0 pilot — Findable is the on-ramp, not a side cost.

## 02 · AU-STACK NATIVE

**Built for here**

Privacy Act 1988 and Spam Act 2003 baked in, tuned to how Australian customers and AI tools actually search.

## 03 · FOUNDER-DIRECT

**No junior, no upsell**

Scoped and delivered by Raj. A written report in plain English — what's wrong, what to fix, what to leave alone.

## 04 · SOURCED, NOT HYPED

**Falsifiable claims**

Every number on this sheet is sourced and dated. Findable sells correctness — never a guaranteed traffic or ranking outcome.

## SOURCES

1. llms.txt adoption ~10.13% of ~300,000 domains — SE Ranking, llms.txt study, November 2025.
2. Australian domains with DMARC protection ~18% — EasyDMARC, State of DMARC Adoption (Australia), October 2025.
3. Structured-data (schema markup) adoption ~12% of websites — Web Data Commons crawl analysis.
4. ~95% of Australian businesses fall under the Privacy Act 1988 small-business exemption (turnover ≤ A\$3M) — OAIC; ABS business counts.
5. Google does not use llms.txt for ranking — statements by Google's John Mueller & Gary Illyes, July 2025.
